Impersonate A User In Share And Perform

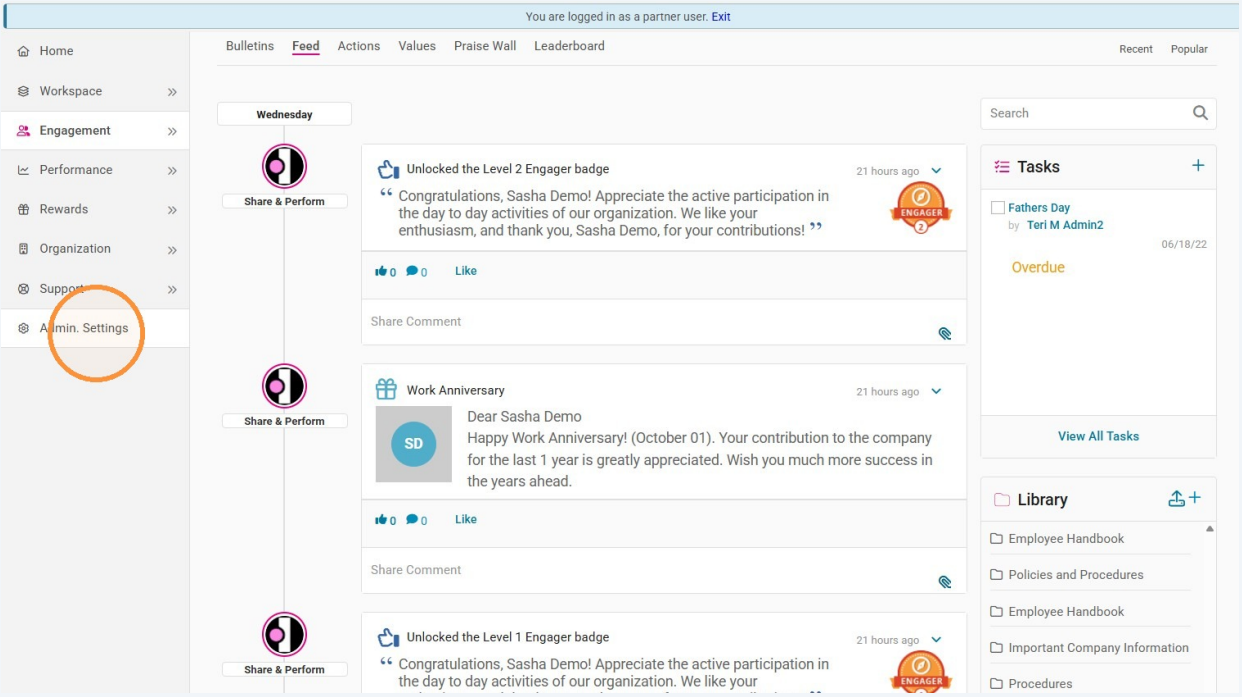

This guide provides instructions on how to use the impersonation feature within the Share & Perform platform. It is designed for administrators who need to view the system from another user's perspective for troubleshooting or management purposes.

1 Navigate to https://thcm100.shareandperform.myisolved.com/social#feeds

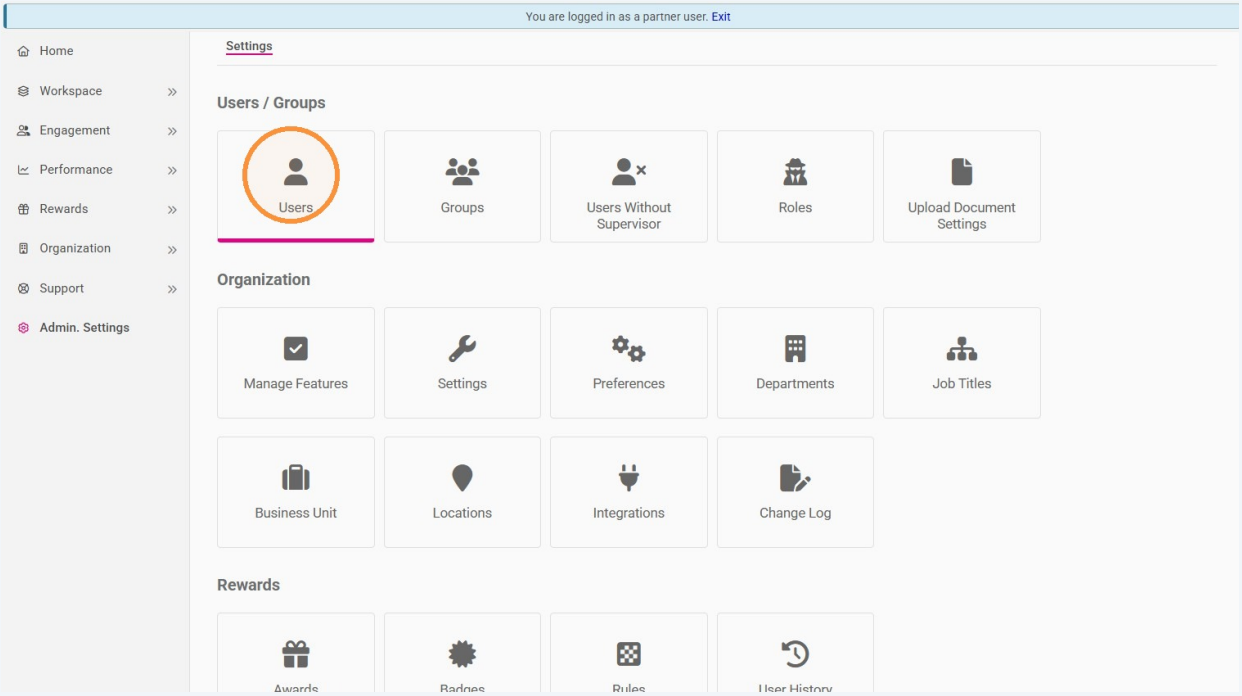

Admin Settings

2 Click "Admin. Settings"

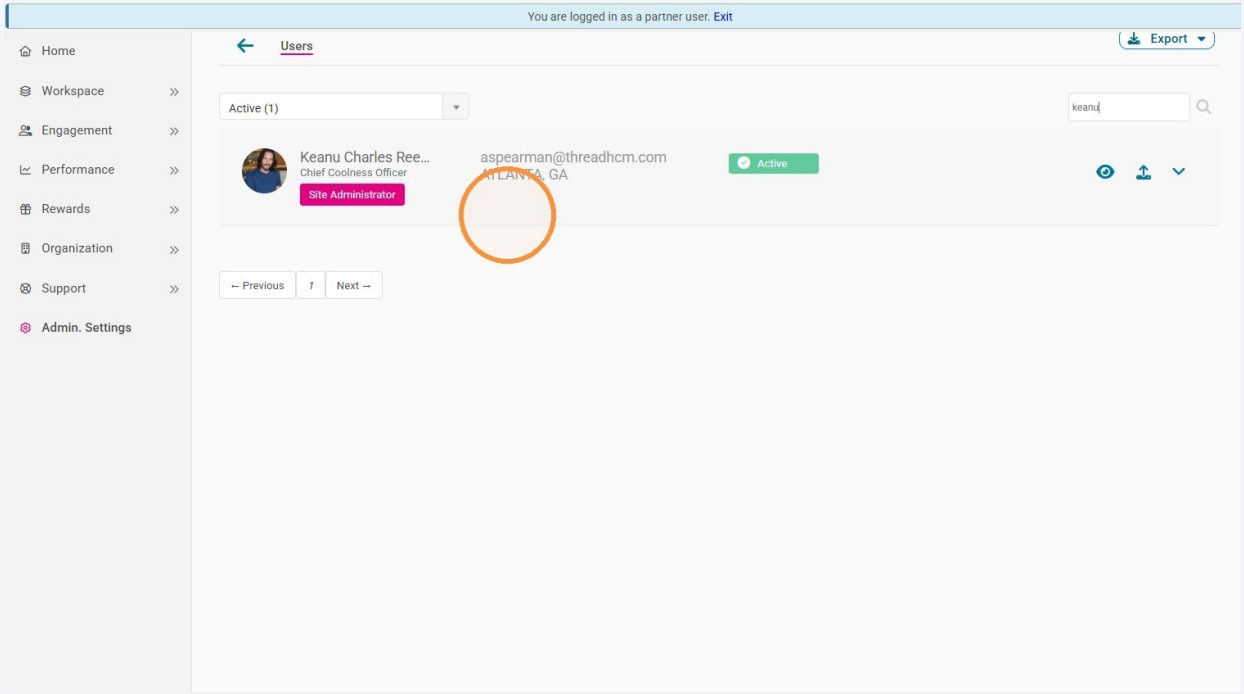

3 Click Users

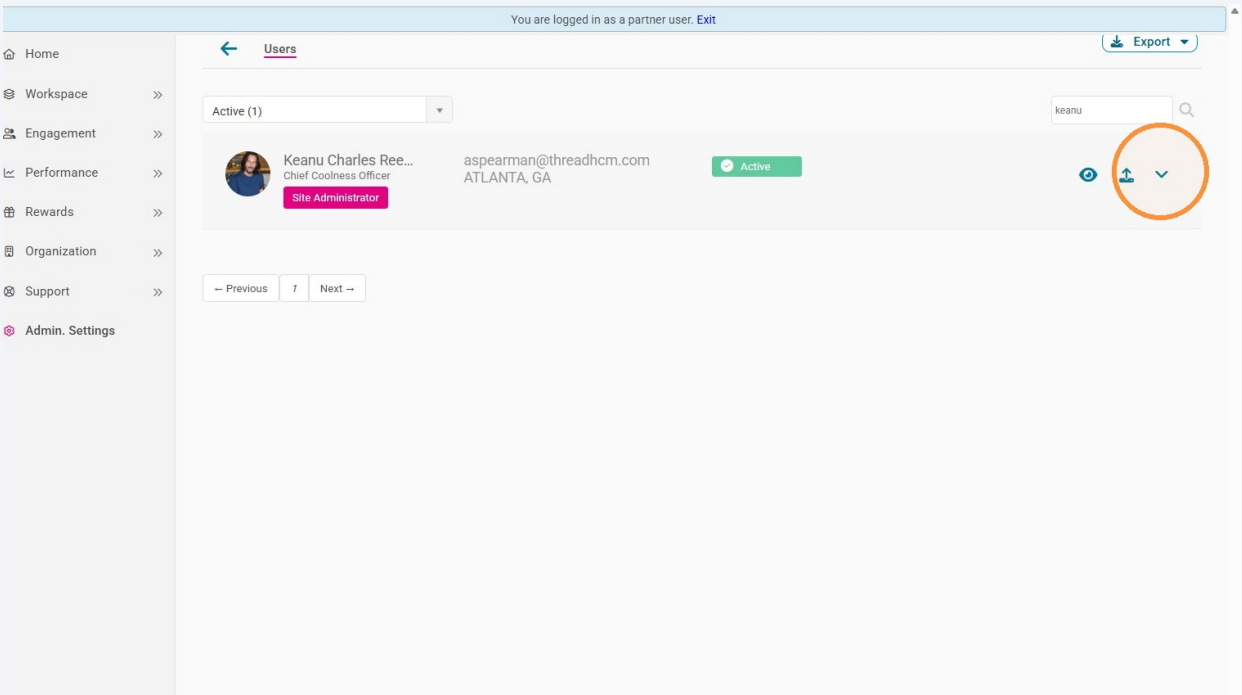

User Impersonation

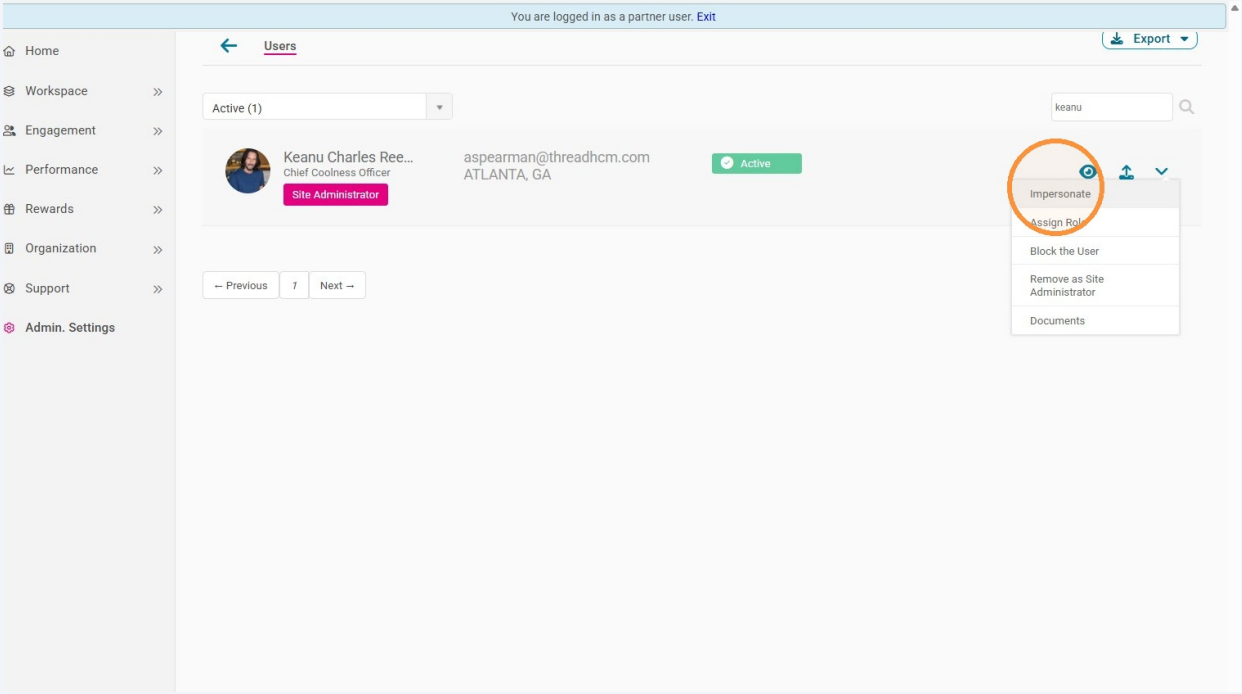

4 Search for the employee you need to impersonate

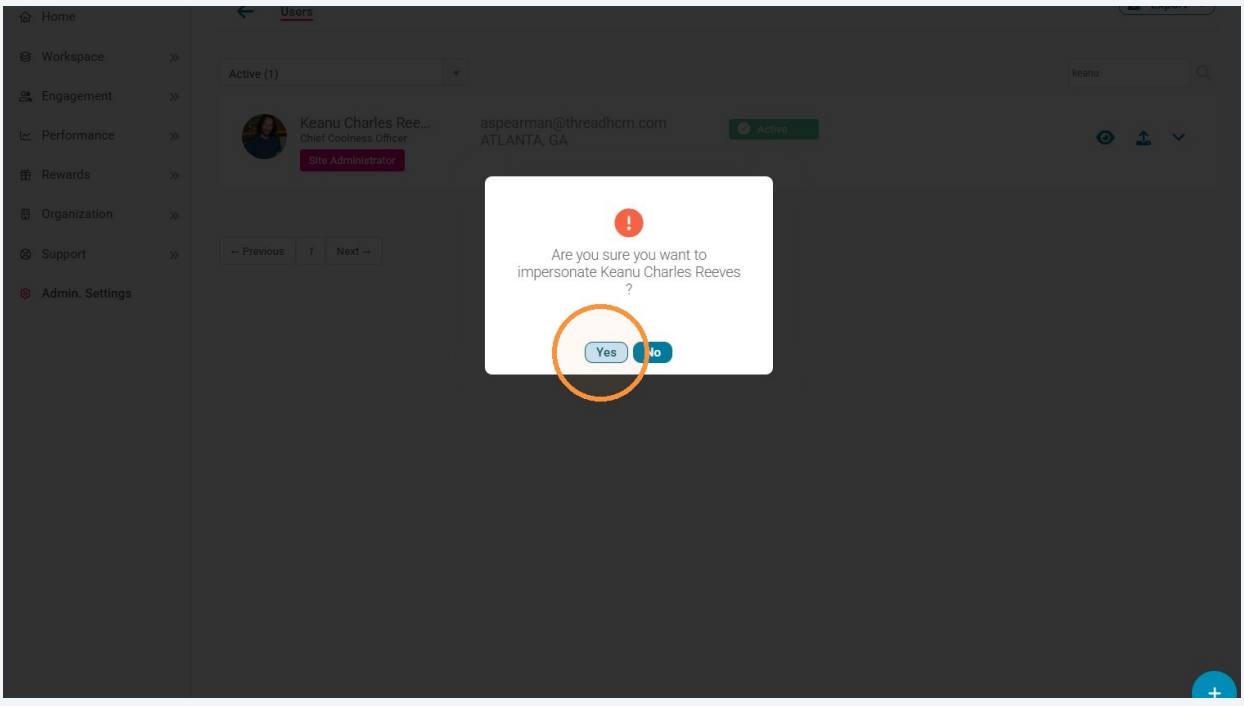

5 Open the user's action menu

6 Click "Impersonate"

7 Click "Yes"

8 Here you can see that you're impersonating, and to go back to your user, just click Exit
