

Turn on Location Services in iSolved App

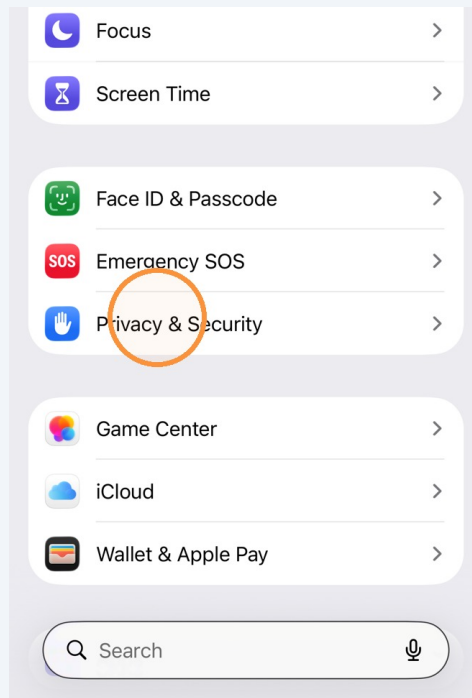

This guide quickly shows how to enable Location Services for the iSolved app so it can access your device location when required.

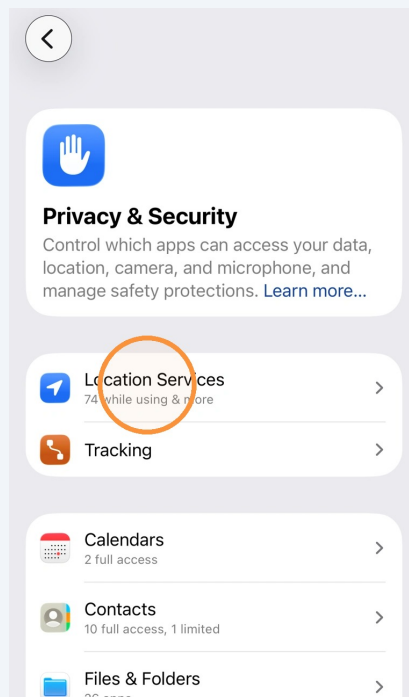

1 Go to Settings

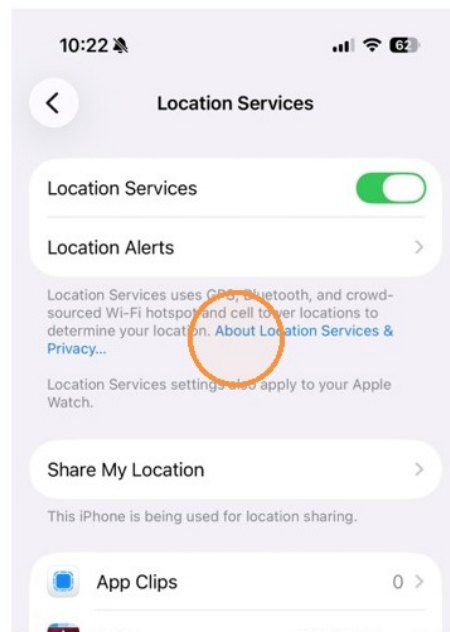

2 In Settings, Go to Privacy and Security

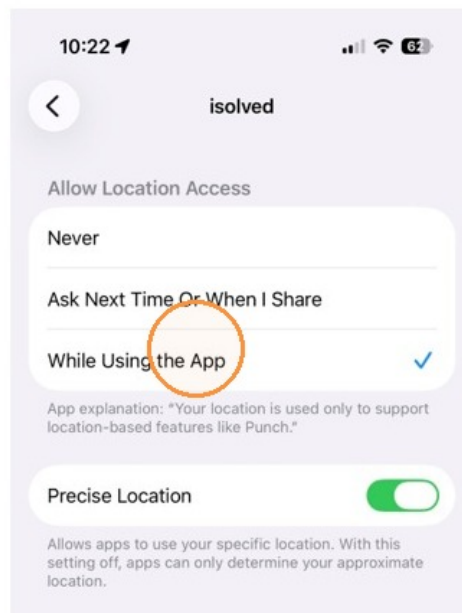

3 Click Location Services

4 In here, find isolated from the list

5 Select While Using the App as your Location Setting and you're all set.

6

You should also get this prompt when first logging into isolved on the app. If you select this here, you won't have to go to settings.
